

ASN-54-RR - REINFORCED RUBBER CUTTING EDGE FOR THE JOHN DEERE 54 PLOW BLADE

THIS ABRASION RESISTANT RUBBER CUTTING EDGE FOR THE JOHN DEERE 54 PLOW BLADE CLEANS BETTER, WON'T DAMAGE SURFACES, AND IS QUIETER THAN THE OEM DEERE METAL CUTTING EDGE.

Contents

- (1) Artillian Cutting Edge, reinforced rubber
- (10) Carriage Bolts, 8mm x 45mm
- (10) Locking Flange Nuts, 8mm

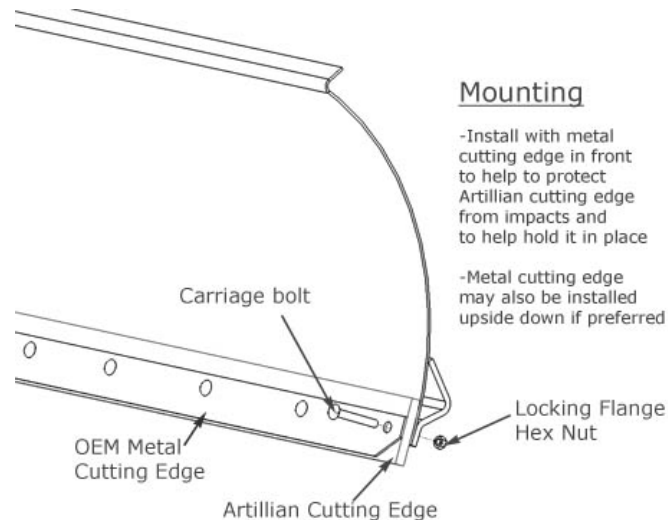

Tools Required

13mm open end wrenches and/or sockets

Installation Overview

Remove the existing metal cutting edge from the plow blade. The existing hardware is not reused. Install according to the illustration below.

Thank you for choosing Artillian!
