

ASN-54-SR - "SNOW SQUEEGEE" FOR THE JOHN DEERE 54 PLOW BLADE

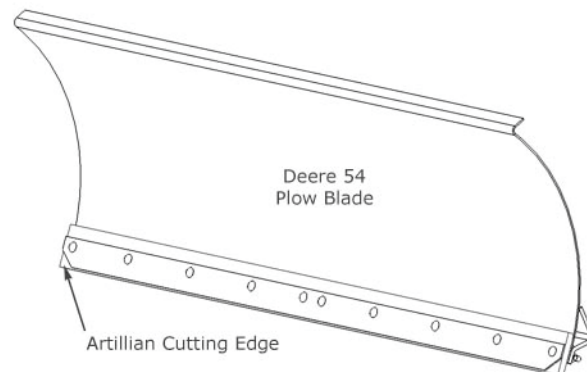

THIS RUBBER CUTTING EDGE FOR THE JOHN DEERE 54 PLOW BLADE CLEANS BETTER, WON'T DAMAGE SURFACES, AND IS QUIETER THAN THE OEM DEERE METAL CUTTING EDGE.

Contents

- (1) Artillian Cutting Edge, rubber
- (10) Carriage Bolts, 8mm x 45mm
- (10) Hex Screws, 8mm x 45mm
- (10) Flat Washer, Med 8mm
- (10) Locking Flange Nuts, 8mm

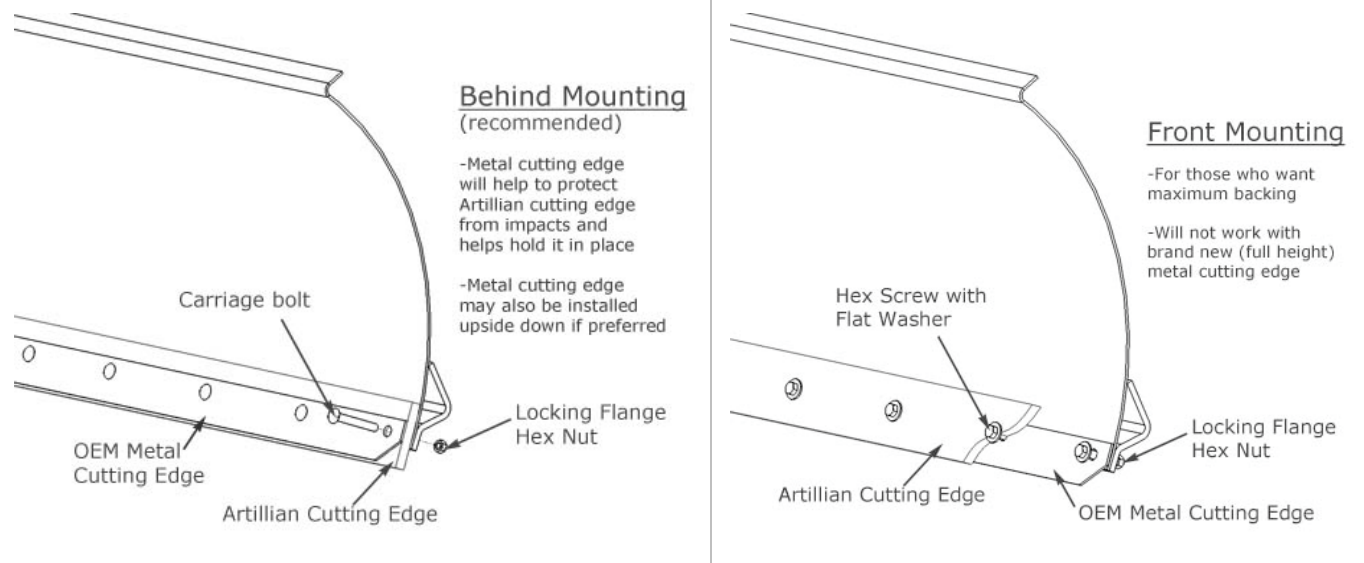

Tools Required

1. 13mm open end wrenches and/or sockets

Installation Overview

Remove the existing metal cutting edge from the plow blade. The existing hardware is not reused. Install the Artillian Cutting Edge according to one of the graphics below.

Thank you for choosing Artillian!
